***Response to Arguments***

4. Applicant's arguments filed on 03/14/2008 and 05/15/2008 have been fully considered and they are found unpersuasive.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3, 8, 9, 11, 15, 16, 24-27, 31, 33 and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Arthur et al., U.S. Patent 6,3728,69. The Board of Patent Appeals and

Interferences ("BPAI") has made the assertion that ligands Q and S are monodentate ligands. The Applicant's argument and the Declarations do not address the BPAI's contention that ligands Q and S are monodentate ligands. The Applicant's response focuses on R146 and R149 and does not suggest why the R substituents are critical to meaning of the Q and S ligands. Thus, the Examiner has decided to maintain the BPAI's rejection.
